Dr. J. Lederberg,  
Dept. of Genetics,  
University of Wisconsin,  
Madison, Wisconsin.

Dear Dr. Lederberg:

Somehow since I have been at Saskatchewan Norton's work on Genetic Recombination in Salmonella has come up a number of times. As a result I have been asked to give a short discussion of the work at a Biological Association meeting. Although I have enough material for a brief talk I would like to have a chance to read Norton's thesis again.

I applied for an inter-library loan but the thesis is not available. I am wondering if you could possibly send me your copy of the thesis for a few days if it is not in use. I guarantee you to return it within a few days.

Yours very truly,

*Doug Knott*

Douglas R. Knott  
Assistant Professor (Research).

DRK/SV

P.S. The meeting is on Nov. ~~the~~ 12<sup>th</sup> so if you can send me the thesis I would appreciate it if you could make it fairly soon.

*Doug.*
